Technical Data Sheet

Rhodium Nitrate

CAS No.	10139-58-9
Formula	$Rh(NO_3)_3$
Molar Mass (gm/mol)	288.92
Grade	RM HC 442
Appearance	Dark orange-brown to red-brown solution
Metal Content	62.01%

Storage Condition

- -

Application

- used as a precursor to synthesize rhodium,Rhodium(III) nitrate hydrate is a crystallinecompound widely used in the field of catalysis, electro-plating, and glassindustry
