

Technical Data Sheet

Rhodium(III) phosphate (Electroplating Grade)

CAS No.	67859-71-6
Formula	-
Molar Mass (gm/mol)	-
Grade	RM HC 440
Appearance	Reddish Yellow solution
Metal Content	-
Melting Point (°C)	-

Storage Condition

- This phosphate based concentrate has been specially developed for decorative applications. It will produce bright, white lustrous deposits at thicknesses below 0.5 μm . The recommended maximum thickness is 1 μm .

Application

- -
