Technical Data Sheet

Palladium(II) chloride

CAS No.	7647-10-1
Formula	$PdCl_2$
Molar Mass (gm/mol)	177.326 g/mol (anhydrous)
Grade	RM HC 103
Appearance	brown amorphous powder
Metal Content	not less than 58.0%
Melting Point (°C)	679 Â°CÂ (decomposes)

Storage Condition

- Store in a tightly closed container at ambient temperature.

Application

- Metal precursor for homogeneous catalyst in C-C Coupling Reactions
- Selective Oxidation reaction of lower Aliphatic Alcohol
