Technical Data Sheet

Sodium hexahydroxyplatinate(IV) (Solution (15-20%))

Formula	$Na_2Pt(OH)_6$
Molar Mass (gm/mol)	343.1
Grade	RM HC 273
Appearance	Pale yellow Solution
Metal Content	15 to 20%
Melting Point (°C)	~150–200 °C Deco.

Storage Condition

- Store in a tightly closed container at ambient temperature.

Application

- Employed as a reagent for hydrogenation, cross-coupling, and other chemical processes
